CRUISE THINGS TO KNOW

Prior to booking, please note the below information, as some changes are made to suit cruise passengers:

- Your cruise liner may say that you'll be tendering in. Since 2017, all cruise liners have been making berth directly at the Geraldton Port.
- Your cruise liner may also note that your arrival time is at 0800, however in our experience the liner arrives earlier than anticipated, with passengers disembarking by no later than 0830.
- As you are booking privately, we wont meet you portside. However there is a shuttle service that will take you from the port to the 'Welcome Hub'. You'll meet us here.
- We ask you to arrive at 0830 hours, as the tour departs promptly at 0845
- We ensure you return in time for your ship's return shuttle. (usually 1600 hours)
- We offer full refunds minus booking & administration fees if the ship does not make port
- We are aware that some liners may run behind schedule, please keep in open contact with us via email or phone and let us know if you are running slightly behind. We will generally wait if you're only a few moments away.
- Failure to board on time, without prior communication will result in a full fare forfeiture.
